### A Red Cross Blood Bank Is Coming!

Wednesday, July 23rd, at The American Legion Hall in Grayling; from 12 Noon until 6 p.m.!

So, please, all you wonderful Crawford County Blood Donors, mark your calendars now, and arrange to come and give the most satisfying gift you can make — a pint of your precious blood to keep some unknown individual alive and restored to health!

Despite all the assurances of every qualified Medical expert in the Country that it is impossible to contact AIDS by donating a pint of your blood, there are still some Donors who are unwilling to believe this and Blood donating is below normal almost everywhere in the United States. There are still some areas where elective surgery is being postponed because of blood shortages.

We believe that all our wonderful Crawford County Donors know there is no risk of contacting AIDS by donating their blood, so let's make this July 23rd Blood Bank a real "Bell Ringer" for American Red Cross!

Remember, Dial-A-Ride will come and get you and take you back home if you come to the Legion to give a pint of your blood. Just dial 348-5409.

KIDS MARATHON — Boys and girls 11-17 tackle the AuSable next Friday in a shorter version of the marathon.

## Kids' Canoe Races Prelude To 39th Annual Marathon

Carlisle Canoe Livery will sponsor the annual Kids Canoe Race this year on Friday, July 25th, the day before the annual canoe marathon. This race gives area youngsters their chance to race in a shortened version of the AuSable Canoe Marathon.

Carlisle Canoes will again allow the participants to use rental canoes for practice runs at no charge, on weekdays only. The participants are responsible for their own pick-up of the canoes for the practice runs. Carlisle Canoes will not make pick-ups without charge.

Permission slips must be signed to be in the race. Kids can pick them up at Carlisle Canoe Livery, 110 State Street, Grayling. Canoes to be used are aluminum 17-footers. Carlisle's will provide canoes for those who

do not have them. Paddles are to be no more than 8 inches in width. The standard Carlisle paddle and most wooden paddles are the right sizes. No bent paddles will be allowed.

There will be three age groups: 11-12 year olds, who race to Louie's Landing, a 10 mile run. The 13-14 year olds also race to Louie's Landing. The older group, the 15-17 year olds, race to Stephan's Bridge, a 17 mile run.

The kids will start the race at Carlisle Canoe Livery, at the State Street Bridge, promptly at 10:00 A.M. They should be at the livery at least 20-30 minutes before the race begins to hear the rules read and pick canoes.

For more information, contact Mike or Kathy Lovely at Carlisle Canoe Livery, 517-348-2301.

## Women Canoe Racers Seek Marathon Record

American sport fans love the underdog, and they go nuts when a David whips a Goliath as when basketball's 5'6" Spud Webb dethroned the giants in the slam dunk contest.

When Lynne Witte and Nancy Shellhorse jump in their canoe at the start of the 39th Annual AuSable Marathon, they're sure to hear a lot of support from more than 5,000 race fans lining the banks.

Witte and Shellhorse expect to be the only female team racing in this year's marathon against 15 to 25 male teams in the 114-mile endurance test.

Neither one of the women weigh more than 120 pounds, and they'll be competing head-to-head against male paddlers, some who weigh more than 200 pounds.

But don't feel too sorry for the Davids, Lynnes, or Nancys. This will be the seventh AuSable marathon in a row for Witte and she's done something few men have accomplished. She's finished every marathon she's started, including the first one. Even one of the greatest paddlers of all, Ralph Sawyer, did not finish the first marathon he attempted at age 15.

"I used to watch the marathon when I was younger," said Witte, a school teacher from Mount Clemens. "I think that helped prepare me for the race. I saw how tough it was and what you needed to finish the whole race."

Witte first paddled with her husband, Ken Witte, in 1980 finishing in a time of 19 hours 13 minutes, and 30 seconds in the amateur class.

In 1981, Lynne and Ken finished in 19:28:28, and in 1982, they improved their time to finish in 18:13:22. In 1983, Witte teamed with Bev Gordon to finish 17:37:15 and set an amateur record for fastest time by a female team.

In 1984, Witte tested the professional class pairing with Steve Landick and finished fifth overall in a time of 15:25:30, setting a mixed team record for fastest time.

In 1985, Witte again finished fifth in the

professional class, completing the race in 15:52:25 with Tom Cannon.

This year, Witte and Shellhorse are aiming at the professional women's team record of 16:50:17 set by Valerie Fons and Ann Kobylenski in 1983.

This will be the first AuSable marathon for Shellhorse. She won't be able to paddle the AuSable for practice until a week before the race.

For Witte, the AuSable marathon is the highlight of the canoe racing season for her. "There are a lot of other races we go to, the Nationals, the Clinton in New York, but this is the biggest race for me, the best," she said.

"The longer the race the better for me," she said. "The more the race depends on endurance, the better our chances. We're not outstandingly strong. We can't outpace those big guys."

After last year's race, she bounced out of the canoe at the finish line, said she felt great, and was ready to paddle some more.

"I'm tired at the end, but it really doesn't bother me like it bothers some people," says Witte, 32. "The next day after one race I was out paddling again."

The worst part of the race for her is just before dawn.

"The hardest section is Mio to McKinley for me. It's usually cool and foggy and you're just waiting for the sun to come up. When the sun comes up, it really does give you a lift. For me it also takes the chill out of my bones."

Although many athletes, both female and male, have tried to complete the marathon and failed, Witte shakes off praise that her six finishes in a row are incredible for a women weighing 115 pounds.

"Almost anyone can do it if they really set their mind to it," she says.

She also downplays the attention given to women competing against the men.

"It's fun beating some of the big strong guys but the most important thing is what we get out of it ourselves. You learn a lot about yourself on that river."

## County Historical Museum Opens Again

The Crawford County Historical Museum, located in the old railroad depot, was reopened Saturday, July 12, after county officials worked together to obtain necessary permits for the building.

The depot was closed for 10 days, including the July 4th weekend. Historical Society members and the county board of commissioners closed the building because they felt the lack of permits would leave them open to the possibility of lawsuits if someone was injured. Museum officials said they received a couple of complaints about the depot not having permits.

The Crawford County Historical Society operates the museum in the depot and Crawford County owns the building.

Along with the good news about the museum reopening, Museum Director Bob Ruddy said the Caboose in front of the depot will be used for the headquarters for the Grayling Milltown Festival. Several Grayling firefighters have taken on the task of cleaning up the caboose.

Some expensive news accompanied the other news for the depot. While a state building inspector was checking the depot, he told Ruddy that a cement ramp would have to be placed before the door of the Canoe Racing Hall of Fame to make it accessible to wheelchairs. He also told Ruddy new stairs built in the depot would have to be torn out and rebuilt.

Ruddy said both of these projects will be expensive and he will probably have to go to service clubs and organizations for their help.

## No-Kill Hearing Set for Aug. 18

A summary disposition hearing concerning the no-kill fishing case has been set for 10 a.m. Monday, August 18, in 46th Circuit Court at the Crawford County Courthouse with Judge Alton T. Davis presiding.

Attorneys for the Department of Natural Resources, the Natural Resources Commission, Ronald Skoog, and John Scott (defendants in the case) requested the summary disposition hearing.

Plaintiffs Connie Binsfeld, Ralph Ostling, Harrison Goodhue, Peter Stephan, Dwight Hassan, Lacey Stephan, Jr., Clarence LaMotte, the City of Grayling, the Committee To Oppose Catch and Release, and The AuSable River Systems Property Owners Association had earlier won an injunction against a new no-kill rule in April. The new law was supposed to go in effect the opening day of trout season on the "Holy Water" stretch of the main stream.

"The community pitched in to get the depot reopened. I hope everyone will continue to support this project," said Ruddy.

Ruddy said Crawford County Commission Chairwoman Mary Harland, the chamber of commerce, and building and zoning director Bruce Jones worked hard to get the permits taken care of. And on Saturday, when the museum reopened, Ruddy said he was short of staff and county commissioner Jeannette Kitchen and county treasurer Joe Wakeley volunteered their time to help man the museum.

## North Branch Raft Missions Reports Vary

AuSable North Branch property owners and Camp Grayling officials have different reports concerning rafts with men floating down the North Branch.

Walt Freyburger, the vice-president of the AuSable North Branch Area Association, says he was fishing in the river the evening of July 6th when four rafts loaded with uniformed men carrying rifles, canteens, and other paraphernalia went by him. Freyburger says three rafts with uniformed men went by him earlier in the evening and other property owners reported other rafts full of uniformed men on July 1, 4, and 6 on the North Branch in the Twin Bridge to Lovells Bridge area. On July 4th, a property owner reported the men got out of the rafts and trespassed on private property with maps and other equipment to view river features in what looked like a scouting expedition.

Colonel Schmidt, Camp Grayling Commander, says there was no authorized military mission using the North Branch. Schmidt said the rafts were civilian-purchased and it is not known who was in the rafts. He said extensive checking of military records showed no authorized training exercises using the river. He said Camp Grayling definitely has no plans to ever use the North Branch for authorized military training exercises. Camp Grayling officials are working closely with the DNR to determine who the men were in the rafts, he said.

Freyburger said the rafts loaded with men were bumping into obstructions and getting stuck in the river which has an average depth of about a foot in that area. He noted that stretch of the river was selected by the state as quality fishing water for flies only, and he said he was writing letters to inform other fishermen what was taking place on this section of prime trout water.

## Milltown Festival '86

On Saturday, July 26, the Milltown Jail will be open for business next to the Caboose in downtown Grayling from 10 a.m. until 2 p.m. During this time, if a special Milltown Cop detains an offender without a Milltown Butten, that person will be jailed until bail is met. The Caboose will be open as the Milltown Information Center and bail (a button) will be available there for \$2. Milltown Buttons are also the admission for the Kielbasa and Beer Tent on Friday and Saturday, July 25 and 26, at Spike's Keo 'O Nails. The Dixieland Band will be performing there on Friday. Milltown Buttons for 1986 are now available at most area merchants.

Milltown 50/50 tickets and McDonald's Coupons are also available now. These also help fund the many activities planned for the 1986 Milltown Festival. Raffle tickets are \$1. The drawing for the winner will be held 8 p.m. on July 26 at Ray's Canoe Livery. McDonald's Coupons cost \$1 and are redeemable until August 15 for \$1 worth of food at McDonald's; \$60 of each coupon goes to the Milltown Festival Committee. Both raffle tickets and coupons are available at Flo's Hallmark in the Grayling Mini Mall; Ole Darn Party Store on M-72 West; Terry's Union 76, Mac's Drugs, Back Room Fashions in the Mercantile Mall, Ray's Canoe Livery, and the Chamber of Commerce Office in downtown Grayling; and the seven/Eleven Store on south I-75 Business Loop.

Some new activities are planned for the 1986 Milltown Festival on Sunday, July 27.

While the Amateur and Professional Canoe Racers are nearing the finish of the 39th Annual Budweiser AuSable River Canoe Marathon in Oscoda, activities will continue in Grayling. At 7:30 a.m., the AuSable Ministerial Association will sponsor an ecumenical Sunrise Service on the beautiful banks of the AuSable River in the picnic area behind Mercy Hospital. This is the first year for such a non-demonstrational service to be part of the Milltown Festival.

Also on Sunday, for the first time, the True Value Country Showdown, sponsored by WGRY, Mac's Drugs, Grayling True Value Hardware, and Patti's Country House, will be held at 3 p.m. This local contest provides the opportunity for country and western musicians to get a recording contract and \$50,000 on a national level. The contest will be held at Patti's Country House. Prizes for the musicians have been donated by K-Mart, The Comfort Center, Flo's Hallmark, Weaver's Gifts, Mac's Drugs, Spike's Key 'O Nails, Pizza by Design in Roscommon, and others. Grayling Promotional Association is also helping to sponsor the contest and will assist with selling the \$2 tickets at the door.

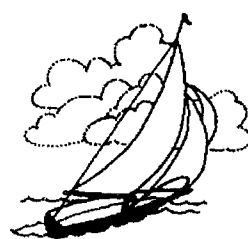

Continuing on Sunday is the Quilt Show at the Icehouse from 10 a.m. until 5 p.m.

Part of the fun of Sidewalk Sales Days is dressing in Milltown attire. Merchants and residents are encouraged to dress in old-fashioned apparel. Plan your costumes now and be ready to participate.

Costumes should also be worn other times during Milltown, especially on Heritage Day and for the Milltown Kickoff Dinner.

**From Our Corner...**

Just in case you are interested...we just returned from Michigan's Fantasy Island...

Thelma and I attended the Michigan Press Association's annual summer convention at the Grand Hotel on Mackinac Island from Friday until Sunday...

This year will be the last one for us to attend the MPA get-together on the island of fantasy and fudge...we must say here, though, this past weekend on the island was sort of ekk...the sun never shown, a few rain drops fell, and it was overcast all the time...

Even with this type of weather...staying at the Grand takes one into another world...it is just something different from the normal way of life...

The biggest problem for our bride over the weekend was the fact she didn't have time to do all of the shopping she is so used to...which didn't bother me, it did save a couple of bucks...and staying at the Grand you had better try and save as many bucks as you can...that is in case of a rainy day, no pun intended...

The weather helped the ol' fella out...at least this year when we arrived home, I didn't feel like my legs were going to drop off from walking up and down the big hill...that stuff is for the young...

Probably the only gripe I have when you stay at the Grand is full dress after six o'clock, and that means a tie, that is something that goes around your neck which I'm allergic to...to me full dress is a sport shirt and sport jacket...I guess I can't say too much...the ladies seem to enjoy getting all gussied up...

We have attended quite a few MPA summer meetings, but, only seen the Governor's summer home at a distance, which is Michigan's little White House...

This year was different...the Friday night's reception was held there, guests of Governor and Mrs. Blanchard...it's a beautiful home...I can see why so many want to run for Governor, it would be quite a spot to spend your free time in the summer...

Come to think about it...Attorney General Frank Kelley was also on the island, and chair-manned the croquet tournament, and he played the winner for all the marbles. He didn't take any marbles home with him...but then, it is an election year...and one takes all the advantages they can get...you don't hide in a closet if your running for an elected office...

This year's room that we had was magnificent to the one last year...this one had level floors, you didn't need sea legs to get around...in fact not once did I hit my shins on an open suitcase like last year...the doors to the bathroom closed like they should, and the doors to the clothes closet had full length mirrors, and they stayed shut...

Compared to last year, the only things different were our room and the weather...it was a relaxing R &amp; R...there is nothing like it at night time...the quietness is unbelievable compared to the cars and hot rods we have during the night right here in Grayling...all one hears is the clippety-clop of the horses, and that isn't too late at night...

The serenity of the island, and the treatment you receive at the Grand takes you into another world...and then, if you know a certain grandmother who likes to shop for three granddaughters...that also takes you into another world...

A couple grins and bear it to help fill this turkey up for this week...

"Beauty is only skin deep, ugly goes right to the bone." Murphy's Laws on Sex.

"No matter how you slice it, pie and coffee is cheaper than a "502." D.W. Callender.

An idle thought...wonder who we could get to pick up the tab so our bride and I could see if the sun would shine next year on the island...

Time to bid T.J., Stefany and Amber goodnight, and to all of our readers, if you got the time...Grayling's Milltown Festival starts next Tuesday, the 22nd. We're sure you will have fun...

**The Bible Speaks**

From Calvary Baptist Church

**The Great "I AM" Jehovah**

When we bear witness about Jehovah, who are we talking about? Who is the Jehovah of the New Testament? "Jehovah" is an Old Testament name for God. "Jehovah" is a translated word which comes from the original Hebrew word "Yahweh". The word "Yahweh" is derived from the statement "I AM that I AM" in Exodus 3:11-16. The English translators not only translated "Yahweh" as "Jehovah", but also "The Lord". Therefore, "Yahweh", "Jehovah" and "The Lord", all speak of the very same name for God.

Jesus Christ claimed this "I AM" name in John 8:58 when he said, "...Verily, verily, I say unto you, Before Abraham was, I am." Jesus Christ never spoke as a created being saying before Abraham was, I was, Rather, He spoke as an eternal being saying "Before Abraham was, I am." This statement by Jesus made the unbelieving Jews so angry they tried to kill Him. "Then took they up stones to cast at him: but Jesus hid himself, and went out of the temple..." (John 8:59).

When the soldiers approached Jesus to take Him prisoner before His trial and death, He identified Himself as "I AM", (John 18:5). (Omit the word "he" in Italics as added by the translators in John 18:5,6, and 8 and you have the great declaration of the "I AM.") When Jesus Christ identified Himself as the great "I AM", even the soldiers went backwards, and fell to the ground.

Concerning the last days Jesus said, "For many will come in My name, saying, I am; and shall deceive many." (Mark 13:6). Jesus Christ claimed to be the great "I AM" God, also known as "Yahweh".

"Jehovah" and "The Lord". One cannot be saved who does not believe upon the name of Jesus. "Neither is there salvation in any other: for there is none other name under heaven given among men, whereby we must be saved." Peter repeated this clear teaching of our Lord, "I said therefore unto you, that ye shall die in your sins: for if ye believe not that I Am, ye shall die in your sins." (John 8:24). Any person denies that Jesus Christ is the great "I AM", "Yahweh", "Jehovah" and "The Lord" of the Bible shall die in his sins and miss all hope of salvation.

**Completes Navy Hospital School**

Navy Hospitalman Recruit Jeff H. Welch, son of Susan L. Noteware of Grayling, was graduated from the Navy's Hospital Corps School.

During the ten-week course at Naval School of Health Sciences, San Diego, Welch received instructions on the basic medical procedures used by hospital corpsmen as they assist Navy doctors and nurses.

He was also introduced to all phases of military health services, including X-ray technology, laboratory analysis, general practice and surgery.

A 1985 graduate of Grayling High School, he joined the Navy Reserve in October, 1985.

**Cleaning Rule**

### Joyce Re-elected

#### Lake Assn. President

At the annual meeting, held Saturday, July 12th, at St. Francis Church Hall, the members of L.M.P.O.A. again elected Garland (Bud) Joyce as President of the Association for the 1986-87 year. Also re-elected were Cal Brenner, Vice President, Batch Anderson, Treasurer and Mrs. Rose Duley, Secretary.

The Association goals for the 1986-87 year will focus on:

1. Gaining membership of new, young members and the regaining active of members who had become "drop-outs".

2. A re-sampling of the lake by N.E.M.C.O.G.'s leachate detector (snooper scooper) in areas found to have had high contamination levels during the 1984 survey.

3. An attempt to obtain specific rules from DNR and/or Grayling Township Zoning Department regarding Riparian Rights of County, riparians (property owners that own property on the lakeshore) and other property owners.

4. Specific rules governing safety and sanitation of the use of public beach area at M-72 and the lake.

5. Specific regulations or rules regarding itinerant "peddlers" of worms, rubber tubes for swimmers, etc. at M-72 and the lake area.

6. Continued cooperation with the National Guard and with its future role in the Hanson Hills area.

### Safety

Safety is everyone's concern — both the elderly person and those persons responsible for their care. Some older persons may neglect the simplest safety precautions because they do not understand their importance. Others more actively resist any suggestion that safety precautions are needed. Perhaps some older people tend to negate the need for safety because admitting there is a need, drives home more forcibly the knowledge that they are no longer as independent and sure of themselves as they used to be. Constant vigilance is needed to safeguard the elderly both at home and in patient-care facilities. Responsible persons must always assess situations for potential hazards and then see that these threats are controlled or eliminated.

Persons aged sixty-five and over comprise somewhat over 11% of the total population, yet this same group accounts for 28% of all accidental deaths and 13% of all hospitalized accident victims. There can be no question that when past sixty-five, a person is far more prone to serious or potentially serious accidents as a result of accidents as a result of accidents, the elderly suffer fractures and burns, and face long-term rehabilitation and even death.

Constant vigilance is needed to safeguard patients in care facilities from falling. It must be remembered that these persons are patients because of failing physical and mental powers.

Additional precautions for their safety must be taken. While usually only one or two elderly people need to be the concern of a single family, the nurse is responsible for the safety of a large number in a care facility. When confusion is a factor, environmental control and secured grounds are protected by high walls or fences, confused patients can be allowed to wander at will with minimum restrictions.

### Happy Birthday, America

by Richard Millman

EVERY JULY brings us another chance to wish a resounding "Happy Birthday!" to our country, but most of us usually don't take advantage of the opportunity.

This year is a bit different, however. This year we have a double birthday to celebrate—not only the United States of America, but the Statue of Liberty as well.

It's fitting that the two celebrations be rolled into one this year. In 1886 — 100 years ago — the famous Lady of Liberty was dedicated in New York harbor.

Over the years it has become a beacon of hope, symbolizing freedom and liberty and opportunity — and not only to the rest of the United States as well. Probably the American flag is the only symbol which surpasses the State of Liberty as meaningful to the American people.

PROPERLY SO. All of us in this nation — except for descendants of American Indians — entered this country under the watchful eye of the Statue of Liberty, either actually or figuratively because somewhere along the line our ancestors did, on one coast or the other. And even the American Indians had to come from somewhere at sometime.

The United States is what is called a settler nation; that is its citizens came from somewhere else originally. And in some manner of thinking, all nations are settler nations of a sort — but that is too philosophical to tackle here.

Over the years, the Statue of Liberty has come to symbolize the opportunity available in the United States to immigrants from around the world. But some folks now are saying that is not right, and must be changed.

BACK 100 YEARS AGO, when the Statue of Liberty was dedicated, America was a far different country than it is today — as several observers are pointing out these days.

"We no longer live in the age of schooners, candles and vast frontiers," warns Roger Conner of the Federation for American Immigration Reform.

"In 1886, world population had barely topped one billion, and much of the United States remained wilderness. In the far reaches of the western states, U.S. Army troops were at war with many Indian nations. Today, world population has climbed past five billion and frontier has fallen to freeway. The modern 'western problem' is not Indian wars, but rapidly diminishing water tables.

"In the past 100 years, boundless op-

timism has been replaced by bounding federal deficits and sluggish economic growth. Over eight million Americans are out of work at a time when federal programs are being cut to the quick."

TODAY'S IMMIGRANTS are different, too, in Mr. Conner's view. Years ago, newcomers to America adapted to their new surroundings despite discrimination; today, "if there is discrimination against Indian engineers in New York, the response is form an Indian PAC."

Columnist Georgie Anne Geyer, writing on this same subject, notes other differences.

"At the turn of the century, immigrants went months at sea to get to our shores," she writes. "Now they come for the cost of a bus ticket from Mexico City to Tijuana—about \$27."

"At the turn of the century, they came largely to stay and to make a new life, in a blessed new land. While this is still true for some, most of the illegal immigrants are not choosing to become 'Americanized' but rather to live off America and to spread their own culture and sovereignty in disdain for America. The early immigrants were grateful; many of the illegals cynically come in on the wings of fraudulent marriage and fraudulent passports."

Mr. Conner, acknowledging the past, claims "legal immigration has enriched and inspired generations of Americans...but all good things have their limits... We cannot take all of the world's displeased and dispossessed...Immigration has helped this country, but immigration that is out of control could destroy the fabric that holds the nation together."

STRONG WORDS, and strong, sobering thoughts, especially on the occasion of the anniversary of the Statue of Liberty. Perhaps the timing is significant, however, because it is obvious the United States must take a hard, long look at our immigration laws.

The emotional answer should be that American is, indeed, the haven for the homeless, the new chance for the world's "huddled masses, yearning to breathe free." If that had not been the answer in the past, where would any of us be?

But the logical response may be quite different.

At any rate, happy birthday to our Lady of Liberty! And happy birthday, America!

## Mercy Hospital Participates In International Program

EXCHANGE KNOWLEDGE — Rosa Sawaichi, left, examines a cardiac monitor in Mercy Hospital's Critical Care Unit along with CCU nurse Marge Martella of Grayling.

Observing the nursing practices in Mercy Hospital's Critical Care Unit for six weeks in the summer can be an intense job, but surgical nurse Rosa Sawaichi says she enjoyed the learning opportunity in northern Michigan.

When she returns to her home in the Republic of Palau, situated in the Micronesian Islands south of Guam, Rosa will put her knowledge into action by setting up a CCU Unit there. Today, critically ill patients entering McDonald Memorial Hospital in Palau must be transferred to Hawaii because there are no facilities available for treatment. However, upon Rosa's return the CCU unit won't be just a dream...it will become a reality.

Spending three months in the United States this summer as part of the Sisters of Mercy Health Corporation's International Health Program, Rosa has divided her time between Mercy Hospital, Grayling, and Catherine McAuley Health Center, Ann Arbor. Rosa first made contact with the Mercy Health System

through two teams of Mercy personnel who consulted in Palau. One of these teams included Kip Papendick, Director of Maintenance, and Sister Jean Marie Umor, Director of Amicare Home Health Services, who worked at McDonald Hospital for three months in 1983.

"The purpose of the International Health Program is to extend the Mercy philosophy of dedicated care to the poor and underserved of developing countries, such as Palau," said Sister Mary Ellen Howard, RSM, Grayling Mercy Hospital President and Chief Executive Officer. "We are delighted to have Rosa join our Mercy family this summer and wish her the best in the challenge of CCU nursing."

Two-hundred islands, only eight of which are inhabited, form Micronesia, explained Rosa. McDonald Memorial is the only health care facility serving the Republic's 15,000 population. In the capital city of Koror the 8,000 residents have access to the hospital, while the remaining islanders seek their health care at various island outposts of McDonald Memorial.

"Upper respiratory di-

sease such as the flu, bronchitis and pneumonia are common illnesses in Palau," Rosa commented. Other common ailments such as diarrhea, hypertension, diabetes and cardiac disease are health concerns also.

"Now if a patient is very ill, we must send them to Hawaii," she said. "We would like to monitor these patients in our own hospital."

With assistance from Mercy Hospital staffers such as CCU Nurse Manager Patrick O'Hara, and CCU nurses Marge Martella and Jini Hindmarsh, Rosa is getting a good look at critical care here and the many advantages of technology. With proper funding, Palau's only hospital will be able to purchase the needed equipment to develop its own CCU unit, said Rosa.

## Youth Services Bureau

We completed our fourth week of YSB counseling and recreation by doing the following activities: In the morning, Group A played a smashing game of softball, later in the afternoon, the group played a game of miniature golf. Tuesday, Group B played softball in the morning and played miniature golf in the afternoon. The staff was pleased to see so much improvement in our golf scores!

Wednesday, Group A began the day playing volleyball at the city park. In the key game of the YSB, staff defeated the kids 21-7. Following volleyball, we enjoyed an ice cream social. (Everybody gained a pound or two!) Finally, we went on our annual Hobo Hike.

Thursday, Group B went on a canoe trip down the AuSable River. We canoed to Burton's Landing. After canoeing, we all enjoyed a little swim in the river. I think we all came back a little pink in color!

Next week's schedule - Monday A - swimming at Pine Knoll Campground. Tuesday - B - National Guard Camp tour. Wednesday - A - gun safety clinic. Thursday - B - Call of the Wild Museum.

Our appreciation this week goes to the Skip Madsen Family over at the Milltown Miniature Golf, and Ray Hill, who helped us during the canoe trip.

We are a United Way supported agency.

## Strolling Around Town

by Fay

There are so many flowers and well-kept lawns showing up all over town that it is going to keep me busy keeping track of them and making sure that I don't overlook some of them. Grayling is really showing an improvement in the attitude of people toward the appearance of the city. Along with bouquets to all of you who are helping to keep pride in the city, try to remember that garbage pickup is on Monday morning so if possible put your things out late on Sunday. Even a well-kept place can be spoiled by bags and boxes set out on the curb and sometimes accidentally spilled by animals, etc. The trash pickup is on leaves, brush or whatever is also on Monday if it's possible for the city crew to get there, otherwise it is picked up as soon after that as possible.

One of the biggest improvements in the downtown area is the parking lot across from the Grayling State Bank. The bank has filled it in, leveled it off and is doing some landscaping with planter boxes.

A new fence was put up in the Wolf's yard on Ogema last year. I missed it then! Next door the Weiman's have some wheels and lots of planters. Over on Madsen Street on the South Side, Rachel Denewitt has lots of hanging pots of flowers and further on the Bill Harwood residence has a pretty round bed of flowers. Next week - more -

## Resource Review

Bruce Patrick  
Conservation Officer

Recently I have received complaints and inquiries as to the use of "jet skis" on rivers in the area, specifically the AuSable River mainstream in the McManis Bridge vicinity. Act 303 (the Marine Safety Act) does not specifically say that the use of such vessels is illegal on rivers. However, there are certain restrictions on the operation of any vessel which may apply.

These restrictions are:

1. Must be registered, with numbers displayed.
2. Must have Personal Flotation device for each person on board.
3. Must yield right-of-way to non-powered vessels.
4. Must be operated with due regard for the safety of others...
5. Must not interfere unreasonably with lawful use by others of the waterway.
6. Must be operated at a slow - no wake speed when within 100 feet of any dock, raft or other vessel moored or at anchor, or within 100 feet of shore when the water depth is less than 3 feet.
7. Must not be operated in a careless or reckless manner.

There are very few places on our rivers where a vessel will be further than 100 feet from a dock, shore or other vessel.

Therefore, I would say this operation of a jet ski at other than a slow - no wake speed would be unlawful in most instances on our rivers. If a serious problem is developing, perhaps a local watercraft control would be in order. This is a move initiated by local residents through their township government to restrict use on bodies of water.

On June 28, Merle Carlson, daughters, Chris Olson and family of Lawton, Cindi Graham and family of Petoskey, and Julie Powers and guest, Debbie Willett of Mears, met at Mitchell State Park in Cadillac. Art Carlson joined them for the weekend where they all celebrated Jennifer Olson's 13th birthday and enjoyed the stories and pictures of Julie's recent trip to Russia with graduate students from Central Michigan University. Julie will be taking a year's leave of absence from her teaching position at Walkerville High School and will be attending CMU to work on a second master's degree, this one in political science.

Jennifer Olson spent three weeks with the Graham's in Petoskey and returned home with her parents from Cadillac. Brad Olson spent a week with the Grahams following Jennifer's visit and with Bob, Cindi, and Katy Graham spent the Fourth of July in Grayling with the Art Carlsons and Richard. The Grahams took Brad to Big Rapids to meet his parents and to pick up Angela Olson who will also be spending three weeks with them.

Evelyn and Ab Sager had a special visitor from Minneapolis recently. Their great grandson, Matthew who will be one year of age on July 18, brought his parents, Fay and Dave Weston for a visit over the 4th of July weekend. Fay's sister and husband, Jill and Randy Kreger came from Saginaw and the young couples enjoyed the sun, a canoe float down the AuSable and Grandma's cooking. Ralph Sager came from Walled Lake for the weekend. Matthew walked for the first time before they left for Saginaw on Monday to visit his grandparents. The Sagers were in Saginaw on Saturday, July 12 to attend a birthday party for Matthew and their great granddaughter, Sarah Joy Ledtke who was one year old on June 28th.

## Sales Change

Sales of scouring powder, mildew removers, floor wax and dishwashing liquid dropped in 1984 for the 10th year in a row, according to a New York marketing company. But sales of paper plates and disposable aluminum baking pans were up.

## Celebrate 50th Anniversary

Seventy-five guests were present to celebrate the Golden Wedding Anniversary of David W. (Bud) & Elida (Johnson) Bearss, on Sunday, July 6, 1986, in the Fellowship Hall of First Baptist Church of Frederic. The party was given by their children, David C. & Diane Bearss of Saginaw, and by John & Carole Bearss of Kaiserslautern, West Germany. Guests attended from Mancelona, Gaylord, Saginaw, Bay City, Grayling, Kalamazoo, Arizona, West Germany, and Frederic.

The celebration began with a "light-side" ceremony, followed by a salad buffet. Mrs. Bearss' corsage of coral and white roses and carnations was presented by sons, David and John. The corsage complemented her peach-coral dress.

Robert Taylor, Pastor of Frederic's First Baptist Church, led in the invocation. During arrival of guests and throughout the

ceremony, piano music was provided by Bud & Elida's first granddaughter, Heidi Joy, who resides in West Germany with her parents. Selections included "Fur Elise," "We Shall Behold Him," "Etude in Style," "Confidence," & "Great Is the Lord." A poem was read by the couple's youngest son, David. A tribute was then presented by their second son, John.

Four of their five grandchildren attended the 50th Wedding Anniversary celebration: Heidi (18) & Jeremy (10) - children of John; and Amanda (5) & Alyssa (3 1/2) - children of David.

The Bearsses have two other sons who reside in St. Augustine, Florida, who were unable to attend: Richard W. Bearss (wife, Donna, and son, Rick) and Charles R. Bearss (wife, Becky).

Bud & Elida Bearss were married December 24, 1935, in Grayling, Michigan.

## Grayling is Second Home to AKA President Ed Parks

Ed Parks

Grayling — Like most Grayling area flyfishermen, Ed Parks has some favorite trout stories to tell, including the time a giant Brown Trout in the South Branch swallowed the six-inch Brookie that Parks was landing, breaking off his leader.

Or the time Parks recovered the fly he lost in the jaw of a Main Stream Brown a week earlier by catching the same fish again.

He also recalls the time he dropped a wild hazel nut into the AuSable at the edge of a dock and watched a large Brown Trout dart out from under the dock and gobble up the strange morsel. And he remembers the night on the Manistee when a night hawk hit his backcast during the caddis hatch.

An avid flyfisherman who returns nearly all of his catch to fight again, Parks and his wife Ruth first started coming to Grayling more than 15 years ago. Two years ago, they decided to make it their second home, building a house on the main stream

of the AuSable River in the Shaw Park area. Parks says they return as often as his busy schedule permits.

These days that busy schedule includes presiding over Albert Kahn Associates, Inc. (AKA), one of the country's leading architectural and engineering firms. Recently elected president of the Detroit firm, Parks is only the sixth person to hold the position since architect Albert Kahn founded the firm in 1895.

During those 91 years, the firm has designed major buildings throughout the United States and overseas. Many of those in Michigan are tied to significant events in the state's history, including the General Motors and Fisher buildings in Detroit, the Ford Highland Park automotive plant where Henry Ford perfected the moving assembly line, and the Willow Run Bomber Plant at Ypsilanti, the largest war plant built during World War II.

Today, AKA's 320 employees continue to serve a wide variety of companies and institutions. Current projects in Michigan include major renovations and expansions to Chrysler Corp.'s truck plant in Warren; The University of Michigan's new University Hospital in Ann Arbor; renovation of the former Washington Elementary School in Benton Harbor to offices for Whirlpool Corporation; and a new manufacturing plant and office building for Nippon-endo Manufacturing USA in Battle Creek.

Parks began his professional career as a layout engineer with a Detroit construction company before

joining AKA in 1951 as a construction field representative. In 1962, he was named a project manager, responsible for overall coordination of many of AKA's larger projects. Five years later, Parks was elevated to Vice President and Chief of Project Management, responsible for administration of all AKA projects.

A 1951 graduate of the University of Cincinnati with a degree in civil engineering, Parks received his alma mater's "Distinguished Alumnus Award" in 1973. He is registered in many states and holds a certificate from the national Council of State Boards of Engineering Examiners.

Recently, he was named 1986's "Engineer of the Year" by the Detroit chapter of the Michigan Society of Professional Engineers (MSPE). The honor was presented for his outstanding contributions to the engineering profession, including his ongoing work in MSPE and his accomplishments at AKA.

Since settling in the Grayling area, Parks has worked on stream improvements and trout cover projects in the Manistee River near Frederic. He also aided in the design of the Grayling Chamber of Commerce's reception building, completed about two years ago.

Someday, Parks says Grayling will become the couple's permanent home, but "that's still a few years off. Grayling, with its honest, friendly people and the natural beauty of its rivers and forests, is close to paradise for us."

### Herbal Corner

Angelica, the botanical name being Angelica archangelica, is synonymous to good, angel, and some would even say to Christianity. The day of Michael the Archangel used to be May 8, during which time the Angelica blooms, hence the reason for the name. Others claim that an archangel revealed in a vision that Angelica would cure the plague. In time, Angelica came to be known as a simply Angelic and known widely as "The Root of the Holy Ghost."

It could be that Angelica derived its name because the pagans used to use it to ward off witches and evil spirits and their spells. Peasants used to tie Angelica leaves around the necks of children to protect them from harm.

In Angelica's lore it is said that it is the custom in the lake district of what was once Latvia for country peasants to take part in an annual procession, carrying Angelica stems to sell in the towns. Part of the procession is the chanting of a chorus with words so old that no one knows what they mean. The ritual is simply an early-summer custom and the words of the chorus have been passed from generation to generation.

Angelica's stem has been candied or cut and prepared like asparagus. The leaves, fresh or dried, added to soups and stews—about a half tablespoon to serve four in the last minutes of cooking. In Iceland, the stems and roots are eaten raw, with butter. Norwegians make a bread of the roots. Angelica has long had commercial value as a flavoring in wines and liqueurs, and occasionally as an ingredient in perfumes.

And to think that you and I thought it was just a fascinating plant. Savory your thyme until next week, darlin'.

Herbally yours,  
E. Diona Cerelli, C.H.

# How To Save \$47,614 ON YOUR NEW MORTGAGE.

## INTRODUCING THE BIWEEKLY MORTGAGE.

It's true. That's how much you can save on a typical \$50,000 Great Lakes fixed-rate, 30-year mortgage. Here's how it works:

Instead of making monthly mortgage payments in the traditional way, you'll make **half-payments** every other week. At the end of the year, you'll have **repaid** the equivalent of 13 traditional mortgage payments.

Over the life of your loan, the more frequent, smaller payments and the one extra payment can cut your interest expense by 25%. And you'll find your 30-year loan repaid in full after just 20 years.

Ask your Realtor or Great Lakes Federal mortgage lender about the new Biweekly Mortgage. Great Lakes Federal Savings can help you get the home you want for less.

Amount Borrowed		Interest Rate	APR	Payment Amount	Repayment Period	Total Repaid	Savings
\$50,000	Monthly Mortgage	11.00%	11.43%	\$476.17	30 years	\$171,421	
	Biweekly Mortgage	11.00%	11.37%	\$238.09	20 years	\$123,806	\$47,614
\$75,000	Monthly Mortgage	11.00%	11.41%	\$714.25	30 years	\$257,130	
	Biweekly Mortgage	11.00%	11.35%	\$357.13	20 years	\$185,709	\$71,422
\$100,000	Monthly Mortgage	11.00%	11.40%	\$952.33	30 years	\$342,838	
	Biweekly Mortgage	11.00%	11.34%	\$476.17	20 years	\$247,608	\$95,230

NOTE: These examples are based on a 20% down payment. Different loan amounts and interest rates will still result in significant, though different, savings. The Biweekly Mortgage is offered in conjunction with a Great Lakes Federal Automatic Payment checking account.

## Milltown Preparations Dominate GPA Activities

The main items on president Karen Kammer's agenda at Tuesday's meeting were Milltown oriented. GPA is actively selling Milltown 50/50 tickets, McDonald coupons, and most of all - Milltown Buttons. The parade committee is meeting weekly to organize last minute details for the Milltown Parade that now lists 70 entries (many with music). GPA urges all its members to don Milltown dress for the festival and reminded everyone that the Ice House has ready made shirts styled in the Milltown fashion that each person can use and add their own blouse and accessories. Chamber president and GPA member Norma Naour reminded everyone that the Milltown Kick-Off Dinner will be held at the K of C Hall on Tuesday, July 22nd.

Other items on the agenda were congratulations to the organizers of the July 4th parade (in spite of the weather) and particularly to Sally Hartig and her committee for the GPA float.

The new cape for Miss Grayling will be ready for

Milltown. This was another project taken on by GPA.

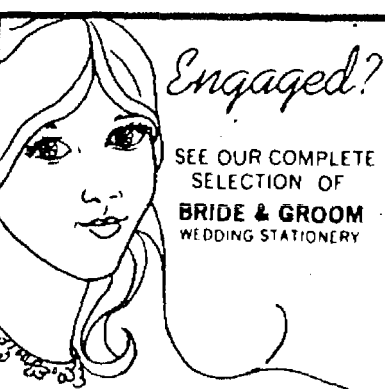

Kathy Ashton reminded all members to look in old trunks and boxes in the attic for Milltown fashions that would be suitable for the "Ladies Dress Shop" room GPA is refurbishing at the depot.

New member Mary Jane Knibbs and Paula Buchanan agreed to chair a committee to give away balloons at the Crawford County Fair.

Finally, we were all reminded that GPA is still actively working towards having every business decorated for fall and little white lights sparkling on every building from Thanksgiving till the new year. This includes the residential district as well as the business district from the Holiday Inn to the Red Barn and from the Hospital to the last Motel on Old 27. Grayling can be the prettiest town in northern Michigan with a little help from all of us.

Music was provided by Larry Iddins Jr. of St. Clair Shores. He sang "There Is Love".

The bride is the daughter of John and Sue Canfield of Grayling. For her wedding she wore a deep blue with white embroidery floor length gown, and she wore a headpiece of baby's breath and ribbons. Her bouquet was made of white Lilies, yellow Roses, white Gladiolus, and pink Daisies.

Jerri White of Pontiac served as the maid of honor. She wore a floor length gown of mauve lace. Her headpiece and bouquet were the same as the brides.

The bridegroom is the son of James and Jennifer Ludy of St. Louis, Michigan.

James Blumenhagen of St. Louis, Michigan, served as the bridegroom's attendant.

A reception was held at the shelter in Hartwick Pines State Park. Blue and white bells and streamers, along with a lot of sunshine and the great outdoors were the decorations for the reception.

Mike Gardiner was in Asheville, North Carolina, visiting his sister and family, Mary and Lee Langolf and daughter, Jessica. From there he went to Boone where he visited a cousin, Dorothy (nee Skingley) and Ken Abbott and he went White Water kayaking on a river on the Kentucky, North Carolina boundary. Going north, he stopped in Richmond, Virginia and also in Columbia, Maryland where he stayed overnight with Gary and Rhea Glisan and family. On his return to Detroit and Grayling he brought Joe and Faith Stripe from Detroit.

The Stripes had flown from Peoria, Illinois, the previous day. Faith had been hospitalized there at St. Francis Hospital for ten days following emergency surgery. The Stripes were unable to make the boat trip with the Bovees because of her illness.

A telephone call from Kelly Fortino on behalf of a Kenquest girl gives a thank you to "A Cut Above" for their haircut for the girl.

I Bet You Didn't Know

Here's a baseball record that just doesn't seem possible, but it's true...The entire Chicago White Sox team of 1908 hit only 3 home runs ALL SEASON! Just think, there've been times in baseball history when one player hit 3 home runs in one game—but imagine, here's a whole team that totaled only 3 homers all year—and they still finished in 3rd place that year!...It's hard to believe, but it happened.

How long does it take you to change a tire on your car?...Did you know that during the Indianapolis 500-mile race, pit crews are trained to change all four tires on a car in the phenomenal time of about 20 seconds!

Every wonder why left-hand pitchers in baseball are called "southpaws"?...Ball parks are usually laid out so the batter faces east to avoid a setting sun shining in his eyes...So, if center-field is east, the south end of ball parks parallels the first base line...A left-hand pitcher's throwing hand is on the first base side of the diamond...Thus, he's a "southpaw".

I bet you didn't know...General Motors has extended their 5.9 interest rate on eligible cars and trucks. Scheer Motors are overstocked with many of these models. There will never be a better time to buy a new car or truck from Scheer Motors.

## Gipson - Pickell Speak Vows

Angela Marie Gipson and James J. Pickell were united in marriage on Saturday, June 21, 1986 at 4:00 p.m. in a double ring ceremony at Sycamore Baptist Church, Jackson, Michigan, with the Rev. Stephen C. Veatch officiating. The bride was given in marriage by her father. Music was provided by Sally Heie.

The bride is the daughter of Curmit and Diane M. Gipson of Jackson, Michigan. She graduated from Michigan Center High in 1985.

The bridegroom is the son of James L. Pickell and Joyce M. Pickell, both of Grayling. He graduated in 1983 from Grayling High School.

The bride wore a floor length dress with Queen Anne neckline covered with lace.

The bride's sister, Fillippa Gipson of Jackson, served as her maid of honor. The brides attendants were Tanya Grammatico and Lisa Grammatico, both of Chelsea. The attendants

were attired in floor length blue silk dresses with lace jackets.

Tony Pickell, the bridegroom's brother, of Grayling served as best man. The groomsmen were Joel Anteau and Duane White, both of Grayling, and Mike Stanley of Torrington, Conn.

The groom wore an all white tuxedo with tails. The attendants wore white tuxedos with tails with blue cummerbunds and blue bowties.

For her daughter's wedding, Mrs. Gipson wore a dusty rose floor length nylon dress with a lace jacket.

Mrs. Pickell, the bridegroom's mother, wore a pale pink empire waist with crystal floor length pleats and nylon overlay.

Following the ceremony, a reception was held at the Chelsea Rod & Gun Club. Music was provided by the band, Alliance.

The couple took a trip to Otsego Lake State Park. They plan to reside in Grayling.

## Doodles From The Tall Timber

by Wendell L. Hoover,  
Park Interpreter

I suspect that any University worthy of its name has someone who has done or is doing research on the self-induced state of unconsciousness known as sleep. I'm not sure who has done the research or made the following observations, but I thought it might be of interest to you.

A rabbit doesn't really sleep, but has sixteen or more regularly spaced naps spread throughout a twenty-four hour day. Snakes, on the other hand apparently sleep most of the time. According to one observer they are awake only for two or three hours a day.

Most of the birds we are familiar with are active during the daylight hours and therefore sleep during the hours of darkness. We seldom see birds sleeping because they are very secretive about their choice of sleeping spots. While birds do not necessarily sleep in the same location each night they do select a place where they are well hidden. Some birds select thick conifers where they snuggle up close to the trunk.

Being close to the trunk of a tree or bush serves also to protect them from the wind which they will face to keep their feathers down. If you have wondered why a bird does not fall off its night time perch, keep in mind that a bird has a long muscle and tendon, which runs from the toes the whole length of the leg. When a bird perches, its kneeds and ankles bend to automatically tighten the muscle and tendon. The tendon contracts the bird's toes, which thus grip the branch or perch, virtually locking it in place.

## Chamber Chatter

By Terry Wright

With summer comes a vast number of here today gone tomorrow businesses in our area. They pull up in a truck, set out their wares, put up their signs and sit back in their lawn chairs until whatever they are selling is gone.

Whether they have fruits or vegetables or paintings or anything else, they are taking advantage of hungry consumers at the expense of local merchants. When their wares are gone they take your money and scoot back to their towns to spend it.

Meanwhile, local merchants are busting their backs making a living and putting more money than you know back into building a better quality of life through Chamber memberships, United Way contributions, taxes and lots more.

Please consider this the next time you want a watermelon, and buy from the local merchants who have a stake in your future.

Now, how about a little trivia. Name the one, full time organization in this county whose sole, full time purpose is to help improve the quality of your life? (So if you knew that, why aren't you a member of that organization?)

## Quilt Show

The Icehouse, along with the AuSable Quilt Guild, is pleased to announce they will be sponsoring the 5th annual quilt show this summer. We would welcome the opportunity to display it for you. Contact "The Icehouse", 348-4821 for details.

Whether you are a beginning quilter, a collector, or just enjoy seeing a part of America's history, be sure to set aside a day to attend this unique event here in Northern Michigan. ### Par For The Course

On Monday, July 14, forty nine ladies enjoyed an ideal evening of golf. We had a guest, Marilyn Reed.

The most improved prize went to Sue Sowulski with 12 strokes. High on holes 2-3 and 8 went to Julie Nankervis, low putts of 13 to Irene Wyman; Chip-ins, Irene Wyman on No. 1 and 6, Mabel Gothro on No. 7, Jo Anne Powell on No. 1 and Evelyn McIntosh on No. 4. Birdies went to Mabel Gothro on No. 7, Jo Anne Powell on No. 1 and Evelyn McIntosh on No. 4.

The drawing was held by Alberto Wiggins and the club prepared a meal of tuna and egg salad sandwiches, tossed salad and applesauce.

Mr. Madsen, I want to start off by saying, contrary to the prevailing rumor, I DID NOT write the letter "That shut down the Depot." Secondly, the letter that was written DID NOT "shut down the Depot" and DID NOT contain threats of lawsuits, as was implied in Avalanche articles. The Depot was "shut down" by the very people who were running it! Why? I think because they realized, finally, that what they were doing was in violation of the State of Michigan codes that are supposed to be enforced by the owners of the Depot, the County of Crawford.

What is so bad about not being in compliance with State codes? Only that it leaves the county wide open for another lawsuit if anyone suffers even the slightest injury at the Depot or "Hall of Fame" building. The "letter" was not threatening a lawsuit, it was trying to warn the county of the possibility of one if they allowed the non-compliance of state construction and barrier-free codes. Again, contrary to prevailing thinking, the county controlled buildings are not exempt from these codes. The county may, and since have, waive the permit fees, but they have no authority to waive the permits or the enforcement of the codes.

Instead of condemning the "letter" writer, we should applaud him because his complaint has triggered the start of the necessary corrections at the Depot. Steps that should have been taken months ago have taken only a few days now that the Depot people are willing to admit they aren't above the law.

Also, Mr. Madsen, I want you to know how unfair I thought your editorial was because it was obviously based on very limited research of the subject. Jumping to conclusions seems to be very contagious. Maybe you were trying your hand at "playing God" as you put it.

Dear Whitey, By the time this letter is published the Depot/Museum will again be open. Even so, there have been some unfortunate misunderstandings about what really happened that need an explanation. People and businesses are being needlessly blamed and hurt because of rumors and untruths. I cannot let valuable Chamber members be given the responsibility for something that they didn't do. Here are the facts.

## Editor's Mailbox

The Depot complex was closed by the Crawford County Historical Society, who has the responsibility of daily operation, when they very adeptly perceived that without proper building permits and without meeting building code standards, the County of Crawford, who is the sole owner of the Depot building, was being left exposed to the possibility of an injury lawsuit. No such lawsuit was ever threatened by any local businessperson or anyone else. With the recent history of liability court decisions, closing the Museum was a very smart move and the County Board of Commissioners, as I understand, concurred with that decision.

The Grayling Regional Chamber of Commerce, from the onset of this project, has had absolutely no authority in making any decisions concerning either the Depot, Caboose or the International Canoe Racing Hall of Fame. I have served as an advisor and supporter through the whole project, but I have never been given any real authority.

The Chamber also has not, nor will we, give any names to the press of people who have expressed concerns over the legalities of this project. It is common sense that the project will have a lasting and positive benefit to Grayling and all concerns expressed have recognized that fact.

There has been tremendous community support for the Museum/Hall of Fame project and now we cannot let rumors and innuendos threaten the unity of the community. As of this writing all County and Historical Society officials are working very hard and very harmoniously to meet the permit and code requirements. My office has offered its services also. Now is the time for everyone else who has an interest to stop kindling the fires of blame and pitch in to rebuild the pride over this project that we've seen for so long.

If you would like to help, Bob Ruddy of the Historical Society, is waiting for your call.

Sincerely,  
Terry Wright  
Executive Director  
Grayling Regional  
Chamber of Commerce

July 11, 1986  
A couple of weeks ago we went through the Historical Museum, I'm ashamed to say for the first time. We were pleasantly surprised that for only \$1 each we were entertained, informed, and taken down memory lane. Everyone who has been involved in this project should be very proud.

Later, over the 4th of July, we had relatives visiting from downstate and we planned another trip to the museum as one of the things to do. We were disappointed to put it mildly when we all went down to find it closed, and we couldn't figure out why as it was a holiday. Then we heard some person had put a complaint in on a barrier free code, so the society had no choice.

Some people in our community are working all the time to improve our business and cultural climate, finding something to attract tourists and at the same time giving people a place to proudly display their donated exhibits of our town history is something we should take pride in.

We agree with another "To The Editor" letter. It is sad that if the complainant knew that something was not right, it could have been brought out during renovation or at least before the first good holiday.

The Historical Society is not a competitive or for-profit organization but a project we could all profit from. Chances are that if the person or persons responsible for the closing owned a business others could sometime or another find some minor infraction in their building. But hopefully they would be given the chance for change before the need to close. We need to add to our assets in Grayling, not take away.

Progressive Citizens,  
Surely this letter will accompany or be followed by others relating to the TEMPORARY closing of the Depot/Museum. Many will focus on the injustice done to those who have worked so hard on this project and who instigated this closing. Let's not waste energy in pursuit of this and lose sight of our goals.

The WHO is of no importance, but WHY was someone compelled to force the hand of our officials to delay our progress? If we as concerned citizens and business people have someone among us who is so negative toward this improvement, then we have not done a very good job of making them feel welcome in our community.

Somewhere, someone has felt left out or been offended, by this project, or some other project, who wanted to be included. Such negative action is seldom unprovoked. Perhaps, we should have sent written invitations.

I have not been paid for our work at the depot, (which did not require a permit). Frankly, it's doubtful I ever will be. But my staff and I are proud to have helped turn an eyesore into an asset. If someone who wanted to participate was left out, then I am truly sorry.

I know that many other people have given of their time, talent, material or money to this community improvement. I urge those people not to drop the ball, but pick ourselves up, pull the sharp stick out of our eye and get our worthwhile effort completed.

Most merchants are asked to donate to something nearly every week, it has been a pleasure to donate to the Depot project. A project that is visual evidence of community cooperation.

Proud of this community.  
Proud of this project.  
Proud of our productive people.  
Proud of my opinion.

My disappointment in the old depot being closed.

When I heard about the new/old museum being closed by very inconsiderate people, I was very disappointed. I planned to take my friends at my birthday party to see the museum for a nice trip. But obviously, I can't.

Sincerely yours,  
An Eleven Year Old.

Dear Mr. Madsen,  
The sad news of the closing of our new museum has been a disappointment to many in this area. I am sure that the anonymous writer of the letter that accomplished this feat must be proud of himself. What he has to be proud of escapes me.

As reported in the current edition of the Avalanche, the person who wrote the letter requested that his name not be released under the Freedom of Information Act as it would be an invasion of his privacy. If I knew who he was I would certainly respect his right to privacy. I would make sure I never patronized his establishment. I guess my decision would come under the Freedom of Choice Act.

However, one point has to be made. If the complainant feels that he is justified in raising such a fuss that it has forced the closing of a site that was good for our town and for the area, then I should think he would be able to allow his name to be released and face those who may or may not agree with him.

Since the damage has been done we can only hope that all of the people who have worked so hard to make the museum a reality will continue to work just as diligently to rescue it from the present maelstrom. There are a lot of great people in this community, and if we all rally around the old depot it will open again and be a proud landmark of the Crawford County region.

Sincerely,

Dear Whitey,

It's hard to believe that we have a few business people here who are so small minded and self centered and short sighted that they choose to ignore the well being of the community as a whole. I refer, of course, to the forced closing of the museum building. I'm quite certain that a lot of us know the identity of these business people and it would be appropriate to boycott their businesses from now on. I suspect that the fear of a boycott prompted these people to refuse to identify themselves. It doesn't take any courage to take action "behind a mask" as they have done.

Sincerely,  
Brad Jarmin

## Wednesday is Children's Day at Milltown Festival

Wednesday, July 23 has been set aside as children's day for the annual Milltown Festival. Events throughout the entire day have been planned. All events deal directly with children and are for the enjoyment of all ages. Children who are interested in participating should read this article carefully as it contains most information needed to participate. Parents and other adults are encouraged to participate in the children's day activities as spectators.

### Merchant's Contests

The Merchant's Contests are the familiar Kid's Games which previously have been conducted in the city park. This year, the games will be held throughout the entire day in front of the various participating businesses. Participants must register with the merchant prior to Wednesday. Signs will be posted at the various merchant locations indicating the time and type of contest to be held. Ribbons will be awarded to 1st and 2nd place winners.

### Track & Field Events

At 10:00 a.m., a variety of Track and Field events will be held at the Football Field near the Grayling Elementary School. These events will be individual events including running events, softball toss and others. No pre-registration is required for the Track and Field events. Ribbons will be awarded to 1st and 2nd place winners.

### Lifesaving Exhibits

The Lifesaving Exhibits are the one event of the day which will be presented by adults for the enjoyment and educational benefit of children. This will be a series of equipment displays by local fire departments, law enforcement agencies, ambulance crews, Camp Grayling and others. The displays will be available from 10:00 a.m. until 2:00 p.m. when they will participate in the Children's Day Parade up Michigan Avenue. Children of all ages are invited to visit the exhibits and talk to the personnel on duty.

### Karate Demonstration

At 11:00 a.m. there will be a Karate Demonstration in the city park presented by the Summer Education Program Karate Class. The class, which was sponsored

by the Community Education Program of the Crawford AuSable School District has been meeting for the past six weeks. This demonstration marks the end of this summer's class. The class was taught by Sandra Haddon.

### Vehicle of the Future Contest

One of the highlights of Children's Day should be the judging of the Vehicle of the Future Contest at 1:00 p.m. at the Depot. Children are to construct their version of some futuristic type of transportation. Materials used in the construction are limited to cardboard, paper, glue, string, paint or crayons. No metal or wood may be used in the construction. Vehicles are to be propelled through the Children's Parade by one or more children from inside the vehicle. Trophies will be awarded first place winners in the categories of, 1. largest; 2. prettiest and 3. most innovative. Ribbons will be awarded 2nd place winners in the same three categories. There will also be one grand prize trophy for the Best of Show.

### Children's Day Parade

At 2:00 p.m. the Children's Day Parade will get underway at the Depot and make its way up Michigan Avenue to Maple Street where it will disband. Merchants, organizations, churches and other groups are invited to join the children of the community in this parade. Participants are asked to be in position on Norway Street no later than 1:30 p.m. Children are encouraged to be in the parade by marching in costume, decorating their bicycle or manufacturing a float of sorts, or of course, by driving their Vehicle of the Future. Groups, organizations and merchants planning to participate in the parade are asked to call the Crawford AuSable School switchboard number 348-7641, and leave their information with the operator there. Let's all turn out and make this the biggest Children's Day Parade ever!

### Pet Show

Following the parade at 3:00 p.m. Children and their Pets will congregate in the city park for the Pet Show. Contestants for the Pet Show are encouraged to participate in the parade. Judging of the pets will be for: 1)

Trophies for 1st place winners and ribbons for second place winners will be awarded in the events of 1) In and Out; 2) Cloverleaf; 3) Pony Express and 4) Two Bike Relay. Complete rules for the contest will be available at the rodeo site one hour before the event is to begin. The bicycle rodeo is always an exciting event and a great thrill for the spectators.

### Gymnastics Show

### Band Concert

At 7:00 p.m., following the Gymnastics Show, the Summer Education Program Summer Band Class will present a short concert, also in the city park.

### Kid's Theatre

At 8:00 p.m., the annual Kid's Theatre Program which is sponsored by the Community Education Program will present performances in the city park. This performance will be presented free of charge to all spectators. On Friday evening, the Kid's Theatre will repeat their performance in the Joseph Stripe Auditorium, for which a one dollar admission will be collected at the door.

All Children's Day activities for the Milltown Festival are open to children up to the age of 14. As is the case of all Milltown events, all participants will be required to have a Milltown Festival Button. Plan to support Children's Day at the Grayling Festival by attending the various activities and by encouraging your children to participate by building a Vehicle of the Future or joining one of the other events.

## Lions News

The July meeting of the Grayling Lions and Lionesses was held at new elected King Lion Ken Eggerts house. After a potluck dinner the Lions held a short meeting, they set up committees and set goals for the year. The Lionesses held a short meeting at which many items were discussed. After the dinner and meetings, several members remained to enjoy sitting around a bonfire.

It is an unfounded rumor that King Lion Ken's burro, Wilbur tried to take over the meeting with a bray or two.

Our newly elected District Governor Russ Shepard and wife, Marja, who is the Lioness president, are at the Lions International Convention in New Orleans.

The Grayling Lions are planning a tenth anniversary

dinner at the Holiday Inn on August 7th. We are hoping for a good turnout of Lions, Lionesses and ex-Lions and Lionesses!

At this dinner the District flag will be turned over to Lion Russ Shepard by Past District Governor Harold Sabin of Oscoda. See you there.

### Par For The Course

Sunday, July 20th is the date for the next golf party. Make up your own foursome or we will pair you with someone.

We will be playing a mystery game, which will not be revealed until play is over. Join us and find out what this is all about.

## Commission on Aging

Here is your chance to gain an understanding of the legislative process, and at the same time give the legislature a better idea of the concerns and abilities of Michigan's senior citizens.

Commission on Aging has been asked to nominate a person for the 1986 Michigan Senior Citizens Legislative Intern Program to be held September 22-26th. This program is sponsored by the Joint Legislative Committee on Aging and the Office of Services to the Aging (OSA).

The intern, who is selected from within the 36th District, will work in Senator Connie Binsfeld's office assisting with constituent casework and general legislative work. The only cost to the intern is transportation and meals; housing will be provided by OSA. This legislative experience for the intern will assist in representing the senior citizens of our area and will provide a great learning opportunity. Persons interested in this program can come into the COA office, 308 Lawndale Drive; we have the applications available for you.

The Milltown Festival is upon us, and a special day for seniors is Heritage Day, July 24th. The evening activities start at 6:00 p.m. with a costume stroll from downtown Grayling to the COA office, where an Ice Cream Social and Dance will be held. The Harrison Memory Lane Band will play for your listening and dancing pleasure; a quilt drawing will be

held; and the crowning of our new Senior Representatives will take place. Who will the new Representatives be? We'll all find out Thursday, night when Matt Bidvia and Helen Leykauf do the honors of passing on their titles.

### Home Food Preservation

The Cooperative Extension Service is offering information on current Home Food Preservation techniques to the community. Handouts will be available and any questions you have on canning, freezing and drying foods will be answered. This will take place on Wednesday, July 23rd at the County Building basement in Grayling, between 10:00-3:00 p.m.

You also have the opportunity to have your pressure canner gauge tested free of charge (you need to bring only the lid). It is a good idea to have your gauge tested every year and to make sure you have the most reliable up-to-date canning information.

Grayling — Ohio Governor Richard F. Celeste presided at a military parade and pass in review involving 4,000 Ohio National Guard soldiers during a visit to Camp Grayling on Friday, July 11.

Gov. Celeste joined Ohio Adjutant General, Maj. Gen. Raymond R. Galloway, in commending the Ohio citizen-soldiers for "a job well-done" during their two-week annual training period which began June 29. Two other major contingents of Ohio Guard soldiers will conduct training exercises at Camp Grayling during the next month.

"I am proud of your commitment to the National Guard," Celeste said.

In a 15-minute speech, Celeste noted the significant economic impact the Ohio National Guard has on the state's economy. He said nearly \$200 million in federal defense money is spent in Ohio each year for salaries, training costs, and construction and maintenance of facilities.

"The National Guard provides jobs and educational

opportunities for Ohioans through the Guard Tuition Assistance Program," Celeste said.

"As citizens and soldiers you serve a very special role," the Governor said. "During emergencies and disasters I've been able to count on your invaluable assistance when I've needed it most." The governor cited as examples the guard's participation during 1984 and 1985 snow emergencies and the 1985 tornadoes that struck northeast Ohio.

The parade and review included fly-overs by jets from the Michigan National Guard, and by helicopters from the Ohio Guard.

Celeste presented several awards during the ceremonies. Lt. Col. Roger Rowe, commander of the 372nd Engineer Battalion, received a Meritorious Service Medal for his battalion's outstanding strength management program during 1985.

First Sergeant Jack Pettit, HHC, 216th Engineer Battalion, also received a Meritorious Service Medal for his outstanding efforts as battalion operations sergeant.

## Celebrate 50th Anniversary

One hundred friends and relatives gathered July 4th at Patty's Country House to celebrate the 50th wedding anniversary of Virginia and Roy Millikin.

Marcie and Dresden Fallon each played a musical tribute to their grandparents. Marcie on the piano and Dresden played the Violin. Harold Hatfield spoke on behalf of all the grandchildren thanking their grandparents for all the time, love and understanding given by them through the years. Roy's brother Bud, was able to come from Texas and his sisters Donna and Bonnie and their families were there along with aunts, uncles, and cousins of both Roy and Virginia.

The guests all brought old pictures which were put in an album and presented to Roy and Virginia and everyone had a good time looking at them. They received many lovely gifts and enjoyed seeing old friends. The lovely bouquet of 50 red, white, and blue carnations was sent by granddaughter Tracy, and her husband Louis Quilici of Hoboken, New Jersey.

## Eyes Of Faith

Rachel, age six, was spending vacation with her grandparents out on their large farm. Granddad had taken her for a long tour of the farm. They went over the fields of growing corn, beans, and everything else birthed and nurtured by God's great world.

When she returned, Rachel found her grandmother busy in the kitchen. "I wish I had granddaddy's eyes," she said.

"Why so, honey?"

"Well, he saw God in everything out there. He saw God in the corn, the trees, the little spring of water, even in the birdnest we found. Know what, he even saw God in the cows and horses and pigs. I sure wish I had his eyes."

"Ah, honey," grandmother said, putting her arms around her little granddaughter. "It is not your granddaddy's eyes you want. It is his FAITH."

Then she kissed Rachel, knelt down and looked her straight in the eyes. "One day, if you work at it, you will have his faith. Then you will see God in everything. Because this is His world. And He is EVERYWHERE if you have faith to see Him."

Annually, thousands of Welcome Wagon Representatives call on over one million households to greet or congratulate engaged women, new parents and movers. In many college communities, they also reach students in the company's Campus Welcome Program.

The organization was founded in Memphis, Tennessee, and derives its name from the Conestoga wagons of frontier days. As westward-moving wagon trains neared a frontier community, townspeople sent out a wagon loaded with food and gifts in hopes of enticing

the travelers to settle in the town. This tradition was revived with the formation of the company in 1928.

Dorthea is active in the Free Methodist Church, and American Business Womens Association and enjoys skiing, gardening, oil painting, quilting and crocheting.

## Daniels Den

This Saturday Daniels Den will be presenting Bill Powell from Canton, Ohio. He is called the Psalmist because of all the Psalms he has put to music. He will be playing a very special piano and singing to you scripture as the Lord leads him. It will be a night of total scripture put to music. You won't want to miss this very special man.

Daniels Den is located on the corner of I-75 and M-72 West in Grayling. The doors will be open at 7:30 p.m. and music will start at 8:00 p.m. to 10:00 p.m. Come and join us for a great night of music.

## Kid's Theatre Time

A small, but dedicated and enthusiastic cast, is busy preparing two short hilarious versions of the Fairy Tale favorites Cinderella and Sleeping Beauty. Performance time is fast approaching. This year the kid's will try their hands at outdoor theatre with the first show being set for July 23 at 8 p.m. in the city park.

The first play is "Let Sleeping Beauties Lie". This comic rendition of the classic story has some new characters and a surprise ending that we are sure you will applaud. The second play: "Another Cinderella" has more of the traditional characters, but again a new ending and a very witty story, July 25, 8:00 p.m. at the Joseph Stripe Auditorium.

Kid's Theatre is fortunate to have Elizabeth Jackson directing this year. Liz has a degree in music and eight years theatre experience, five of those years in professional theatre. The expertise she brings has greatly enhanced the children's experience and guarantees a great show for you.

Watch for further information and other possible show dates!

## Historical Depot Escapes Wrecking Ball

"The historic Grayling Railroad Depot, which had been slated for demolition by the Department of Transportation will be preserved through a cooperative project of Crawford County and the Grayling Rotary Club." (This article was taken from the Bay City Times and written by Frank Michels, Sept. 4th, 1984.)

What a wonderful beginning for something that will benefit our city and county. The preservation of our heritage is a thing that needs a lot of work and dedication by many loyal people.

It is difficult to understand why our Crawford County Historical Museum had to bear the brunt of a few LOYAL supporters of Grayling and Crawford County.

After helping to start the Crawford County Historical Museum and maintaining it for fifteen years I know there are a FEW problems involved.

After reading and listening about stories on the closing of our depot museum I consider we were lucky at the old museum. We did some alterations in the one hundred plus year old school building without building permits.

Hurrah! we had one toilet and that was active only part of the time. The visitors had to climb several concrete steps to enter the museum building, no ramps or elevators installed.

It is my sincerest hope and prayer that necessary variances will be obtained to meet the state handicapped codes before the Milltown Festival.

At this time I would like to present orchids to the many loyal supporters of the museum down through the years and to the present time. Any others should enjoy their ONIONS.
